No. 505. A herb 1 to 3 feet high, with bisect or trisect leaves, the segments lanceolate and white margined. Native to central Asia.

107579 to 107583. *TRIFOLIUM* spp. Fabaceae. Clover.

107579. *TRIFOLIUM FRAGIFERUM* L.

No. 507.

107580. *TRIFOLIUM PRATENSE* L.

Red clover.

No. 508.

107581. *TRIFOLIUM REPENS* L.

White clover.

No. 509.

107582. *TRIFOLIUM RESUPINATUM* L.

Strawberry clover.

No. 510.

107583. *TRIFOLIUM SQUARROSUM* L.

No. 511.

107584. *TRIGONELLA NOEANA* Boiss. Fabaceae.

No. 512. A bushy annual with erect stems about 6 inches high, oblong-spatulate leaflets, and small solitary axillary yellow flowers. Native to Asia Minor.

107585 to 107592. *TULIPA* spp. Liliaceae. Tulip.

107585. *TULIPA FOSTERIANA* Hoog.

No. 513.

For the introduction of bulbs and the description see 106772.

107586. *TULIPA GREIGHI* Regel.

No. 514.

For the introduction of bulbs and the description see 106773.

107587. *TULIPA KAUFMANNIANA* Regel.

No. 515.

For the introduction of bulbs and the description see 106774.

107588. *TULIPA KOLPAKOWSKIANA* Regel.

No. 516.

For the introduction of bulbs and the description see 106775.

107589. *TULIPA LANATA* Regel.

No. 517.

For the introduction of bulbs and the description see 106778.

107590. *TULIPA LINIFOLIA* Regel.

No. 518.

For the introduction of bulbs and the description see 106779.

107591. *TULIPA PRAESTANS* Hoog.

No. 519.

For the introduction of bulbs and the description see 106781.

107592. *TULIPA TURKESTANICA* Regel.

No. 520. A tulip with two or rarely three linear-lanceolate leaves and with yellow flowers, violet within, on a scape 3 to 12 inches high. Native to Turkistan.

107478 to 107596—Continued.

No. 521. A bulbous plant from central Asia, with 8 to 12 linear bluish two-ranked leaves and pinkish or yellowish flowers borne on a stem about a foot high.

107594 to 107596. *VICIA* spp. Fabaceae.

107594. *VICIA ERVILIA* (L.) Willd.

Vetch.

No. 522.

For previous introduction see 98861.

107595. *VICIA HYRCANICA* Fisch. and Mey.

No. 523.

For previous introduction and description see 107126.

107596. *VICIA* sp.

No. 523-A. Oval-flattened seeds which were mixed with No. 523 (107595).

107597 to 107599. *ALLIUM SATIVUM* L. Liliaceae. Garlic.

From Germany. Bulbs presented by Dr. O. Knapp, Eisleben. Received December 29, 1934.

Wild garlic, said to be from the following localities:

107597. Thuringen.

107598. Spreewald, south of Berlin.

107599. Spreewald, south of Berlin.

107600 and 107601. *HELIANTHUS TUBEROSUS* L. Asteraceae.

Jerusalem-artichoke.

From France. Seeds presented by the experimental department of Vilmorin-Andrieux & Cie., Verrieres le Buisson. Received December 18, 1934.

Seeds grown in Algeria; introduced for the use of Department specialists.

107600. No. 2.

107601. No. 1.

107602. *ZOYSIA MATRELLA* (L.) Merr. Poaceae. Manila grass.

From Manchuria. Seeds purchased from Manshu Nosen Shokai, Inc., Dairen. Received December 20, 1934.

Introduced for Department specialists.

For previous introduction and description see 107272.

107603 to 107613. *TRITICUM AESTIVUM* L. Poaceae. Common wheat.

From Australia. Seeds presented by Dr. H. Wenholz, Wagga Experiment Farm, Department of Agriculture, Sydney, New South Wales. Received December 14, 1934.

Introduced for Department specialists.

107603. *Apollo*.

107604. *Baroota Wonder*.

107605. *Bundar*.

107606. *Cadia*.

107607. *Exquisite*.

107608. *Firchill*.
